Trend Micro

MAXIMUM SECURITY

Comprehensive Web Protection for You and Your Family

Trend Micro™ Maximum Security provides comprehensive, multiple device protection and privacy for your digital life. It's unique security, designed to safeguard you and your family on social networks like Facebook, Google+, Twitter, and LinkedIn. With its parental controls, you can restrict or filter website access when your kids go online.

Additionally, there are password management tools and storage for up to 5 GB of your files in the cloud. Maximum Security gives you the flexibility to protect up to 3 devices – any combination of PC, Mac, or mobile (iOS and Android) devices. This is all-in-one security for practically everything you do online.

KEY BENEFITS

Trend Micro Premium Security software provides essential web protection. It does the following:

Blocks Dangerous Websites
Protects against viruses by identifying and blocking dangerous links on websites and in social networks, emails, and instant messages

Protects Your Privacy on Facebook, Google+, Twitter, and LinkedIn
Identifies privacy settings on social sites that may expose your personal information and lead to identity theft

Manages and Encrypts Passwords
Includes a password manager to easily sign into websites without having to remember multiple passwords. Works across multiple devices

Protects Kids Online
Lets you control desktop application access and restrict online access for kids, protecting them from inappropriate websites

Guards against Identity Theft
Detects spam emails containing phishing scams that can trick you into revealing personal information

Tunes Up System
Fixes common PC problems and optimizes to restore your system to top speed

Secures Android and iOS Mobile Devices
Locates lost or stolen devices, provides a secure browser, and does regular backups of your contacts

WHY IT'S BETTER

Based on 25+ years of security software industry leadership and expertise, Trend Micro Security delivers:

- The **fastest web protection** against new Internet threats[1]
- **Top-rated** defense, blocking sites trying to trick you into downloading malware[1]
- Protection against **250+ million threats** per day
