

Trend Micro

ANTIVIRUS + SECURITY

Essential Web Protection

Trend Micro™ Antivirus + Security gives you essential online protection and privacy so you can enjoy your digital life safely. It protects you from identity theft in addition to safeguarding against viruses, spyware, spam, and other online threats. Antivirus + Security gives you the peace of mind that comes with knowing you and your valuable data files are protected.

Antivirus+ alerts you to dangerous links in email and instant messages. Also, it gives you simple screens and clear, easy-to-understand security update reports. Trend Micro security delivers fast protection against new web threats—unlike other security solutions that leave you exposed to threats for hours or even days.

KEY BENEFITS

Trend Micro Antivirus + Security software provides essential web protection. It does the following:

**Protects against Viruses**

Blocks viruses, spyware, worms, and Trojans from infecting your computer

**Blocks Dangerous Websites**

Protects against viruses and spyware by identifying suspicious links in websites, social networks, emails, and instant messages

**Guards against Identity Theft**

Detects spam emails containing phishing scams that can trick you into revealing personal information

**Provides Safe Surfing**

Helps keep you from visiting dangerous websites

WHY IT'S BETTER

Based on 25+ years of security software industry leadership and expertise, Trend Micro Security delivers:

- The [fastest web protection](#) against new Internet threats¹
- [Top-rated](#) defense, blocking sites trying to trick you into downloading malware¹
- Protection against [250+ million threats](#) per day
